Shaker Lane Elementary School
Littleton, MA

Atlantic Construction and Turner & Townsend Heery are currently providing OPM services for the construction of the new Shaker Lane Elementary in Littleton. The 97,000+/- SF school will serve 500+/- students. Existing school will be demolished for new fields, separate bus and car drop-offs, and additional parking spaces. The building contains Pre-K through grade 2 classrooms, team activity spaces, art and music programming, administrative offices, a cafetorium with a stage for performances, a new state of the art media center, and separate play areas for Pre-K and K-2. MSBA Facilities Assessment Committee praised the project teams' concept for the design and will be recommending to move to the schematic design phase at the MSBA's February 2025 Board meeting. The school is scheduled to open for the 2028-2029 school year.

Project Cost	\$99.7 Million
Construction Cost	TBD
Completion Date	TBD
Size	98,000 SF
Client	Town Of Littleton
